Subject: RE: NOTICE OF PROPOSED REGULATION

Dear Commentator:

You were among the persons who offered written comments with respect to the proposed regulation referenced above. I hereby acknowledge receipt of those written comments. Under the provisions of the Regulatory Review Act (at 71 P.S. § 745.5a), this Department is required to review and consider your comments as it prepares the "final-form" version of this regulation. The Regulatory Review Act also prescribes a process by which you can formally request: (1) a copy of the final-form regulation (showing any changes that have been made as a result of the comment review process); and (2) notification of the date upon which this Department delivers the final-form regulation to the Independent Regulatory Review Commission for review by that body. The Regulatory Review Act requires you to be notified that - if you wish to make this formal request - you can do so by contacting me at the mailing address or telephone number below. Rather than require you to make this formal request, though, the Department of Agriculture will e-mail you a copy of the final-form regulation on or before the day it delivers that document to the Independent Regulatory Review Commission, and will advise you of that delivery date.

If we may provide further information, please advise.

Sincerely,

Jill Brownfield, Administrative Support
Canine Health Board, c/o PA Dept. of Agriculture
2301 N. Cameron St, Harrisburg, PA 17110-9408
