**Subject:** increased renewal fees

I am opposed to the increase fees, specifically due to the reason for the increase. In my experience many complaints and issues before the board are based on disputes over fees and concern about paying bills. To raise license fees for this reason will cause the veterinarians to have to raise fees and further compound the problem, especially a 100% increase over 10 years. A better solution would be to work with the PVMA and PA Veterinarians to help educate the public on services and decrease complaints. Sincerely, Kevin Ramey DVM
