INDEPENDENT REGULATORY
REVIEW COMMISSION

Earl, I concur with Lysa Holland's sentiments concerning these pesticide regulations. Penn State has been diligent in keeping their people trained and certified. The further restriction of EPA exempt pesticides would cause unnecessary expense. Moreover, there should be better clarity in the notification regulations to accommodate institutions like Penn State. Ed

Hi Ed:
Here's the letter I sent to the PDA and a link to the regs and proposed reg changes. I appreciate your willingness to comment!
Lysa
