Subject: New Laws for Wood Burners

JAN - 4 REC'D

INDEPENDENT REGULATORY
REVIEW COMMISSION

Dear Environmental Quality Board,

I am in favor of good quality air. However, this new proposal for outdoor woodburners is ridiculous. If there is a need for new rules it should be left up to the local govt. NOT blanket coverage for the whole state. There are many areas where poor people live and can barely afford to buy wood to keep warm. Its a real shame that every thing a poor person tries to do some govt agency tries to mess it up so the poor get poorer and there life is more miserable. Some of these regulations would make it impossable for people to even have a wood burner. I hope you reconsider this proposal and live and let live!!! Thank You for your consideration.

Sincerely Yours

Richard W. Albaugh
