Dear Gentlemen,

I am very happy
that you are finally doing something
about the boilers.

We live next to
a grocery store that burns all their garbage.

They usually do the garbage - cardboard old
food etc. Early in the morning or late at
night. The wind will take that awful
black smoke around the neighborhood.

It get so black you cant breathe.

We are afraid for our health. Breathing
that in every day.

We hope you can help us.
The burner sits between the buildings.
