INDEPENDENT REGULATOR
L. BRADY

Dear Enviromental Quality Board,
wood burner to heat my home. I hope that isn't going to change. I heat with an outside boiler because it's cheaper and more reliable than using oil gas or electricity. My wood supply is renewable, cutting the wood is an enjoyable family experience, and having the boiler outside is cleaner and safer than having a wood stove inside. I also get ashes out of the ash box to cinder my driveway and road.
you Chris Curtis

I use an outside
Thank
