

Dear E. G. Board

I wonder how much
the Oil & Gas Company have
influenced this proposed
nonsense or dictatorship

Dear E. G. Board

We have heat with wood
for years in indoor stoves or
indoor furnaces.

My parents heat with wood
for over 65 years.

All these married lives together
the one room school house
where I went to school heat
with wood. (The Pleasant
Valley School)

When I was growing up
every one around here heat
with wood.
