RE: PROPOSED RULEMAKING 25 PA.CODE CHS.121 AND 123

ENVIRONMENTAL QUALITY BOARD

Outdoor Wood-Fired Boilers 39Pa.B.6068

Dear Sir/Madam

I am writing this letter in opposition to your outdoor wood furnace regulation.

I use an outdoor furnace to heat my home and business. I use coal as my fuel. I have a 30 ft. chimney for the furnace. How can you not let me burn coal in my furnace when the school next door uses an indoor furnace burning coal to heat their building?

With the high price and the shortage of oil and gas and the abundance of coal, it only makes sense to allow others like myself to burn coal.

I request coal be an allowance for fuel.

Sincerely,

A handwritten signature in cursive script, appearing to read "Thomas S. Zimmerman".
