Dear Sirs:

I am against the proposed regulations that the Environmental Quality Board is trying to set forth.

I am a widow on social security trying to make ends meet. Besides my own word, I feel that this is just one more freedom being taken away from the American people.

I hope that we can still have our freedom and that we are not living in a Socialist Country as of yet.

Please consider this.

Sincerely,

Rena P. Burlingame
American Citizen
