As long as I have known Marcella Ball (about 2 years, I have known of her despair over the fumes and fears of no one ever doing anything about it. We have prayed over it and researched it and I have listeto her sob as she was afraid for her family.

It would be nice to talk to her and just share recipes and grandchildren stories and dieting tips, but instead we come to the furnaces because against her will she is FORCED to breathe unclean air or sell and move. She has family next door and her business with her husband is local so it would be disastrous to make that choice.

Surely this is a slam dunk position. The law is being broken as peace is disturbed. Thank you, juanita flener hamlin, moyock nc 27958
