Subject: State regulation of outdoor wood-fired boilers

2009 OCT 26 PM 11:27

INDEPENDENT REGULATORY
REVIEW COMMISSION

We are in favor of state regulation of outdoor wood-fired boilers. Our home is situated on a slope about 20' above a property that has an outdoor boiler about 500' feet from the back of our home. Even at that height and that distance, we have been exposed to the smoke which burns our eyes and has an unpleasant odor. There has been a change in ownership of the offending property and we hope things improve, but our past experiences prompt us to support state regulations as proposed by the Environmental Quality Board.
