Subject: Outdoor Wood Boilers

2009 OCT 26 PM 11:24

INDEPENDENT REGULATORY
REVIEW COMMISSION

We have owed a outdoor wood stove for over 10 years,It has saved us thousand of dollars in heating costs. My husband is disabled and we live off of what he gets a month, if We had to heat with gas or electric we would not be able to buy food or anything else.This wood stove makes it easier for us to survive.What difference does a 10ft chimmey on them make? My husband put a higher stack on it but it is not 10ft high.You's complain about the smoke,yet we have people on are road that burns tires,mattress,and just about anything they want too.Yet I don't see you's doing anything about that.The smoke from what they burn is alot more toxic than a outdoor wood burning stove. We pay 650.00 a year to heat our home and water in the winter,which is alot cheaper than a 300.00 amonth gas or electric bill. I don't understand why our government has to make it harder on the people in this state to live a decent life.In door wood stove are so much more dangerous, ask any fireman, and they smoke more than a outdoor one does. Also they really don't put out as much smoke as you want people to believe the do.And what is this 500ft or the 150ft from a structure.Give us a break. You people need to come up here to the woods and see what living in ruarl area is all about.Because you have no idea what it is like to have to live from paycheck to paycheck.This is a stupid law that you want to pass.And I hope that our Reps. take note that the people are tried of being feed to dogs all because someone is making money off the big wigs. I for one will not honor your rules if they are pass.We have only burned wood in our stove,we do not burn garbage or anything else.There are alot more things in this world that causes pollution but you want to go after the little people. How many planes fly over the state in a day you can't tell me that they do not hurt the environment. This is one of the problems our state has giving you's to much power over everyone else. DO NOT PASS THIS BILL, iat will only hurt people in this state who are already hurting enough. Thank You For Your Time; Jane Laird
