Subject: please ban outdoor furnaces on small lots

2009 OCT 26 PM 4:25

INDEPENDENT REGULATORY
REVENUE COMMISSION

I live in Bradford, Pa in a small neighborhood of 40 homes all are on small lots, we are currently fighting with one of the new residents in the area to prohibit the outside furnace/boiler. This will put a chimney about level with my bedroom windows or below. I dread the thought of all this smoke all winter with the harmful polutants that it carries. Thank you for listening. Any help I can get from you to put in some sort of laws will be much appreciated.
