Subject: Outdoor wood-fired boilers

2009 OCT 26 PM 11:25

INDEPENDENT REGULATORY
BOARD COMMISSION

To whom it may concern:

After receiving notification that the Environmental Quality Board is considering imposing state regulations on outdoor wood-fired boilers, I wanted the chance to send in my thoughts and comments:

We have enough DEP/federal regulations in place already with the aforementioned boilers. The local municipalities have their own regulations in place.

Most of us in rural PA cannot afford to heat our homes with natural gas/electric alone.

Most of us in rural PA do not qualify for assistance programs to pay for gas/electric heat, nor do we want assistance.

Please tell the gas/electric companies to get their hands out of our pockets, we do have alternatives.

Also, get your hands out of their pockets, can you say 'kickback'?

Thank you for the opportunity to voice my opinions.

Sincerely,
Mary Kay Gummo
