Sirs,

My outside furnace is the only source of heat that I use for my home. Any regulations that will impair the use of my furnace will create a hardship.

My furnave has been in use since the fall of 1987 and has not created any problems.

I use the wood that I get from my own farm. It's just my way to help reduce our dependancy on foreign oil.

I understand that there will be hearings scheduled on this matter. Will you send me the times, dates and locations of these hearings?

Thank you

David A. Carney
