Subject: Outdoor Woodfired Boilers

INDEPENDENT REGULATORY
REVIEW COMMISSION

To whom it may concern:

I want to register my opinion that there should be no restriction or registration added to the rights of homeowners to warm their homes with woodfired boilers and especially in this difficult economy. Please consider the needs of the average citizen and restrict the continued taxing and regulation of people of our state.

It would be best to encourage people to want to live in Pennsylvania due to the increased movement of citizens to other states. By restricting the lifestyle of families through this measure will only exasperate our citizens.

Thank you for consideration of this concern,
