RE: Proposed Boiler Regulation

The last thing we need is more government regulation. It's like being nickel and dimed to death. Enough is enough.

Rendell has a big problem...he doesn't know how to live in the real world. He's all about taxes and more taxes and he really doesn't care about Pennsylvanians...unless, of course, they are from Philadelphia. Rendell should also read the ***Constitution and The Bill of Rights***...because **MY** rights are being stepped on, time and time again. Rendell has interfered one too many times with **MY "pursuit of Happiness"**, of which I am **guaranteed** by the federal government.

But I think John Steinbeck (1902 – 1968) said it best, "***Man is the only varmint who sets his own trap, baits it, then steps on it.***"
