Subject: outdoor wood fired boilers

2009 OCT 30 PM 3:13

INDEPENDENT REGULATORY
REVIEW COMMISSION

I am in the process of installing an outdoor wood fired boiler to combat the electric increase my family faces this coming January. We have electric heat and needed to find a more cost effective way to heat our home. With the proposed new legislation I am unsure of the impact this will have on my decision and have stopped our process. As our quality of life is tested in the current economic environment, I hope our government does not continually make it more difficult on its citizens. I oppose regulation and restriction on outdoor wood fired boilers that fall outside of safety.
