Subject: Woodburner Reg's

I don't feel that the woodburner reg's proposed are needed and would place a hardship on the taxpayers due to increased heating costs if they have to use Natural Gas or heating oil. I have and use an outside wood furnace and the savings on heating my home is alot and being on a fixed income would not be able to afford to be warm in the winter if these Reg's are passed. Charles Smith, 27 Bush Hill Rd, Austin Pa 16720
