 FEDERAL REGULATORY
 ADMINISTRATION

To whom it may concern,

I am writing you today to let you know that I am vehemently opposed to the EPA's proposal of putting strong restrictions on outdoor wood-fired boilers.

I have an intimate knowledge of this proposal as my local municipality has already crammed it down my throat. The EPA or any other government agency has absolutely no business telling me what to heat my home with. I am being discriminated against because I choose to heat my home with one of these boilers. This proposal violates the fourth amendment of the Constitution...the right to be left alone and the right to PRIVACY!!!

This proposal, if passed, will be just one more nail in the coffin toward a socialist society. We live in a REPUBLIC, not a democracy and I don't want the government (any form of it) making decisions on my behalf.
