Subject: outdoor wood stoves

2009 NOV 12 PM 3:08

INDEPENDENT REGULATORY
REVIEW COMMISSION

Do not pass this regulation giving the state the right to tell me what I can and can't burn in my outdoor wood stove. If I burn the burnable things from my house waste stream I am recycling those things in to energy to heat my house and my domestic water. Therefore saving energy for others to use as well as possibly keeping it out of the landfill. I also don't have to worry about anyone going through my trash and finding bank records or other personal important papers that need to be disposed of.
Thank you for listening,
David Lucas
