I am writing to express our concern over your interest in sticking your nose into our backyards! If you need more money, find something in the paychecks of the politicians in Harrisburg, even Washington. We all have to make ends meet somehow, but you people seem to think we have an unending place to reach to get your bad idea money. If you are onto outdoor furnaces, what about the ^{wood} furnaces in homes, fire places, Amish homes even weiner roasts! What about pellet stores??!

Since this country was founded, the wood has been used for heat & cooking.

Leave the people alone on this crappy idea. Just another way to put your hand into our pockets. Lets get real!!
Back off!!!!

Sincerely,
Clare Humes
