ENVIRONMENTAL QUALITY BOARD

This is a request to require the minimum 100 foot forested buffers on all Pennsylvania streams.

- Forested Buffers are good for the environment and the economy because they reduce pollution and flooding and increase property value.
- We need minimum 100 foot forested buffers on all streams in PA
- Clean water along with a clean environment is important to our health and to our children's health.

Please preserve our environment for our children.

Sincerely,

Janice Pantano
