Subject: Outdoor wood stoves

2009 NOV 30 PM 3:35

INDEPENDENT REGULATORY
REVIEW COMMISSION

I am writing in concern of the proposal of the seasonal prohibition on outdoor furnace operation between May 1 and September 30. I would like to voice my opinion and request your help in this matter. I have heated my home with an outdoor wood burner for over a year now, I also use this burner to heat my hot water through the summer months. This has save me 100's of dollars to date. Being a single mom I live on a fixed income and this has helped tremendously, yes it is more work, but I would rather put in the work than not be able to afford to pay my electric bill, especially with the cap coming off the electric rates in the new future.

Please take a stand and help the people who are trying to not only to make end meets by using outdoor wood burners but are also conserving resources.

Thank you for your time.

Angela Cromley
