Subject: Proposed Wood Boilers Act

2009 NOV 30 PM 3:34

INDEPENDENT REGULATORY
REVIEW COMMISSION

Port Allegany, PA 16743

Before this goes though, think about the extra money the government will be spending.

1. Someone will have to go around to each house
2. The extra money that will go out to help people pay for heat
3. The amount of paper work that will be added to everything you already have

With PA's budget already bad, this will just add to it.

This act may work in the city's but in the country we don't have the same problems.
If this goes farther, add a population per square mile minimum for this to take affect.

There are more pressing matters that you could be working on, so stop wasting you time on something stupid like this.
