Subject: Boilers

INDEPENDENT REGULATORY
REVIEW COMMISSION

Please leave boilers alone. This is the only way we can afford to stay warm. We also clean up the dead trees in our area. This gives new growth room to develop and make the land look better.

Why is this any different than camping and having a camp fire ?

It is just nature being recycled.

So many people are having a hard enough time making it in today's world.

Are you really going to make them choose between food or heat also ?

Please do not do this,

Sincerely,

Mary Lauffenburger
