Subject: Outdoor wood-fired boilers - OBJECTION

RECEIVED

DEC 7 REC'D

INDEPENDENT REGULATORY
REVIEW COMMISSION

Dear Environmental Quality Board:

I am writing you today in opposition of the bill that the DEP wants to propose regarding outdoor furnaces. I have owned a wood furnace bought locally from D&R Outdoor Furnaces in Kresgeville back in 2004. I use this furnace to heat my entire home and it causes no impact whatsoever on any neighbors. I have never received any complaints even though the stove is in operation 12 months of the year. I built a building to keep my wood from getting wet so that it does not smoke as we know that wet wood will smoke. I attend any and all local meetings that pertain to this subject in order to stay educated on proper use and compliance issues. I live on a Christmas Tree farm on the Effort-Neola Road (Effort side) in Chestnuthill Township, Monroe County. I would be more than willing to show anyone on your committee my stove in operation.

Sincerely,

Troy DeHaven
