**Subject:** Restrictions on the use of outdoor wood-fired boilers

DEC 1. REC'D

INDEPENDENT REGULATORY  
REVIEW COMMISSION

I am writing to comment on restrictions to the use of outdoor wood-fired boilers proposed by the state's Environmental Quality Board.

Many people rely on these boilers to affordably heat their homes and they should not be subject to unwanted and unneeded regulation by the state. Local governments already have the authority to regulate these boilers if needed.

I am asking that the Environmental Quality Board and the state Department of Environmental Protection not impose any new restrictions on outdoor wood-fired boilers.
