Subject: outside boilers

DEC 7 REC'D

INDEPENDENT REGULATORY
REVIEW COMMISSION

TO WHOM IT MAY CONCERN: The person or persons who are sponsoring this bill have never burned wood and this is quite obvious. The outside wood burners are the safest way to burn wood that has come down the road in a long, long time. AS for having the stack as you call it, (most everyone I know call it a stove pipe or chimney) being above a house 500ft. away is stupid. The people I know have a lot more to complain about than the neighbors smoke and most places where you see outside woodstoves aren't in metropolitan areas where you can hear your next door neighbors phone ring. **WERE TALKING COUNTRY HERE PEOPLE!!!!!!!**

GET YOUR HEAD OUT OF YOUR RECTAL ORFICE.

Thank you and have a nice **THANKSGIVING.**
