Subject: State Regulation of Wood-Fired Boiler

DEC 7 REC'D

INDEPENDENT REGULATORY
REVIEW COMMISSION

I fully oppose the state regulating outdoor wood-fired boilers.

Although I don't own an outdoor burner, I do heat with wood. Wood is a renewable and plentiful in this area. Many people in this area have a very small income and should have the right to chose an alternate heat source other than electric & gas.

Outdoor woodburners are much safer than indoor woodburners.
I am a firefighter with 40+ years of experience.

Again, I am opposed to the state regulating outdoor wood-fired boilers.

Sincerely,

Crawford C. Holmes
