INDEPENDENT REGULATORY  
REVIEW COMMISSION

To Whom It May Concern,

Please stop the Rendell administration from imposing these ridiculous restrictions on the use of outdoor wood-fired boilers in Pennsylvania.

Do we not have any freedoms any more? Now we are being told how we can heat our homes.

I would gladly just use the gas and push up the thermostat instead of going outside to fill my furnace, but I can not afford it. Unless, of course, Gov. Rendell would like to pay my heating bill.

The restrictions are just absurd. No other explanation!

Next governments will tell us how often we are allowed to breathe.

Please help the people of this

great state now. If government  
will be allowed to do this,  
what will be next?

Soon this will not be a great  
state, but one that no one ~~will~~  
even want to live in.

Sincerely,  
Mrs. Delita Halbauer
