**RE: Proposed Regulations of Outdoor Boilers**

ENVIRONMENTAL QUALITY BOARD

I totally support your proposed regulations.

These outdoor boilers are a health hazard. They are a step backwards to being able to breath clean air.

Local governments often permit use of cheap coal and allow it year round just to heat a swimming pool. Clouds of smoke sometimes obscure the road and the soot and sulphur dioxide land on your house, buildings, shrubs and clothes.

Thus, these outdoor boilers are not only a health problem but also a nuisance.

Thank you for this proposed ordinance. I hope and pray it passes.

Sincerely,

Jack E. Guthridge
