December 4, 2009

Dear Sirs,

RECEIVED

This letter concerns our outside Wood Stove, I have been using it as our only source of heat for 10 years. I live on a fire insurance and don't know what I would do if I couldn't use this stove any more. We have 85 acres on which we burn our own wood - which is seasoned and dry for 2 years before we burn it. We live in Sullivan County. The purpose ^{is} to stop burning may 1st. We still have snow here sometimes in May.

I understand that some people with these stoves burn garbage or wet wood which make smoke.

The height of the stacks is also a concern. Our neighbor ^{across} would have to have a stack higher than his barn and house.

I feel these regulations should be a matter for towns or residential areas only.

RECEIVED

DEC - 7 2009

Respectfully,

John M. Richlin
