INDEPENDENT REGULATORY
REVIEW COMMISSION

It is about time something is done to rein in these stinking things. My husband and I live several thousand feet from one, the prevailing winds are almost always in our direction, and the stench is sometimes so bad, it makes ones eyes water just going outside. Thank you for initiating this law! Oh - and these people burn garbage, etc, AND heat water with the thing during summer months. There are times we cannot even sit on our porch it is so bad..
