Subject: wood burning boilers

2009 DEC 17 PM 4:07

INDEPENDENT REGULATORY
REVIEW COMMISSION

Since my representative Martin Causer has contacted me I will once again express my thoughts that these darn boilers are a public nuisance. The only way we will have clean air to breathe is to ban them. I am sorry some feel this is the only way to heat their homes. Perhaps we should work harder at making "clean" fuel more affordable. Please pass this legislation. Saying the local authorities will take care of it is just not true, I am still trying to get our local township officials to enact a ban in residential neighborhoods. Unless you have lived beside one of these "chocking smoke stacks" you have no idea how dreadful a deep breath can be.

Thank you and please enter my opinion into the record. BAN OUTDOOR WOOD FURNACES!
