

Dear Sir/Mam

I am writing to you to let you know what a hardship it will be to me if you enact these new outdoor Furnace rules. I heat my house with an outdoor furnace and have for the last three years. I buy and cut wood which helps my local economy and saves me a great deal of money on my heating bills. When I was still heating with oil my house was always cold, mostly because the oil costs so much that I tried to use as little as possible. Now my house is warm. Please don't enact these new rules.

Thank you,
