Re: Department of Labor and Industry Regulation 12-89

Dear Chairman:

I am writing to advise of my support for passage of L&I Regulation 12-89, the adoption of the '09 ICC Code revisions as provided in Act 45.

I am a member of the UCC Review and Advisory Committee and participated in the deliberations that resulted in recommending to the Department this adoption. In the spirit of Act 45, minimum standards for public safety in the built environment through nationally vetted code development – it is in the best interests of the Commonwealth and its citizens to be current with these protections.

I therefore strongly encourage favorable action of L&I Regulation 12-89.

Respectfully,

Ausmus S. Marburger
President
