Re: Passage of Labor and Industry Regulation 12-89

Dear Mr. Coccodrilli,

I am writing to advise you of my strong support for passage of L&I Regulation 12-89, the adoption of the 2009 ICC Code revisions as provided in Act 45.

As Fire Chief for the City of Reading, Pennsylvania I am directly involved in the safety of our firefighters, our citizens and the buildings which they occupy. In the spirit of Act 45, minimum standards for public safety in the built environment through nationally vetted code development - it is clearly in the best interests of the Commonwealth, its citizens, and its first responders to be current with these protections.

I therefore strongly encourage favorable action of L&I Regulation 12-89.

Respectfully,

**WILLIAM H. REHR, III**
