**Subject:** Please support strong regulations to protect drinking water

May 21, 2010

Independent Regulatory Review Commission PA

Dear Review Commission,

Please vote to support regulations that reduce the risk that total dissolved solids (TDS) pose to our rivers and streams. Pennsylvania's rivers and streams provide billions of dollars of direct and indirect economic benefit to the Commonwealth's families, farms, and industries.

Total dissolved solids have already polluted drinking water and led to massive fish kills. We need these rules in place to control the significant new source of TDS pollution from gas drilling wastewater.

WE THE PEOPLE INSIST ON CLEAN WATER/S AND ACCOUNTABILITY FOR ANYONE/EVERYONE WHO FOILS THEM !!

I fully support DEP's efforts to establish effluent standards for new sources of wastewaters containing high concentrations of total dissolved solids and urge the DEP to go even further in protecting our waterways.

Thanks for your consideration.

Sincerely,

Mrs. Anne Jackson
