Subject: I SUPPORT Dockets # 2783 and 2806.

Hello,

I am a concerned citizen in Mansfield Pennsylvania, and I feel that we need more regulation and monitoring of the gas drilling industry on the fronts of environmental impact and public health. Please respond, letting me know what is underway to keep me protected from the side-effects of the gas drilling explosion.

Please consider passing the following:

Docket Number #2783 [EQB 7-440: Erosion and Sedimentation Control] Docket Number #2806 [EQB 7-446: Wastewater]

Thank you for your time!

Sincerely,

- Daniel Schmitt
