IRRC Regulator
PA

Dear Regulator,

Please help protect water quality in our rivers and streams. Two important regulations are now before the Independent Regulatory Review Commission (Nos. 2783 and 2806). Amendments to 25 Pa. Code Chapter 95 require that gas drilling wastewater be treated before being discharged into our rivers and streams. Amendments to 25 Pa. Code Chapter 102 require a buffer zone for development activities along our Pennsylvania's best rivers and streams.

Pennsylvania's streams and rivers are one of our most precious natural resources, and it is important that we do a better job to protect them.

I look forward to your leadership on this issue.

I support the adoption of these regulations. Please let the Independent Regulatory Review Commission know you support them as well.

Sincerely,

Ms. Martha Carbone
