INDEPENDENT REGULATORY  
TELEVISION COMMISSION

Hello,

Thank you for requesting public input into your proposed revisions. Please know that I am requesting that you provide sufficient requirements to reduce the risk of contamination to our local environment and our citizens as if you and your families were living in the areas of highest impact. Also know that I strongly disagree with any language in the amendment that would allow a grandfather clause that exempted those who were permitted prior to April 1, 2009. Any such clause will allow a known risk to be ignored, as well as provide an unfair competitive advantage to those companies whose operations hold the greatest risk to our community.

I am trusting you are worthy of the title Civil Servant and will fulfill your duties to safeguard the public interest to the best of your abilities. Thank you for your hard work.
