COMMISSION**Subject:** Drinking water standards revision and the Marcellus Shale development.

My name is Edward L. Obermiller, and I live at 264 Stewart Run Road in Waynesburg, PA 15370.

It is important for the southwest part of PA to participate in the current Marcellus Gas bonanza, but the participation needs to be tempered with a healthy respect for our MOST VALUABLE resource, our water. Please see to it that the water standards you are considering takes this into account. Thank You.
