Subject: DEP Chapter 95 [25 PA. CODE CH. 95]

RECEIVED

2009 JAN 13 AM 11:12

INDEPENDENT REGULATORY
REVIEW COMMISSION

To whom it may concern:

I am writing in support of the highest possible limitation of effluent discharge into our waterways and monitoring thereof as proposed in amendments to Chapter 95. Please extend enforcement to all dischargers, bringing those who were permitted before April 1, 2009 into compliance as they are re-permitted. It also my wish to determine the environmental impact and cleanup cost before letting the gas industry operate, and ensure the subsequent clean-up at their expense. This will require knowing the so-called secret ingredients being used in frack fluids.

Thank you.
