Subject: Fwd: Wastewater Treatment Requirements

2010 JAN 13 AM 11:13

INDEPENDENT REGULATORY
REVIEW COMMISSION

I wanted to respond to the following bulletin:

<http://pabulletin.com/secure/data/vol39/39-45/2065.html>

Please increase the standards for wastewater from gas drillings. Salination and polution of local waterways and soils is known to have a terrible effect on the environment and people living in the region. I would actually like to see a very aggressive policy in place.
