REVIEW COMMISSION

TO WHOM IT MAY CONCERN,

THE DRILLING STARTED OUT HERE ABOUT 5 TO 6 YEARS AGO .THE FIRST WELL THEY DRILLED ACROSS THE ROAD FROM US RUINED OUR WELL.TO OUR SURPRISE THEY DID NOTHING,SAID WHAT EVER WAS IN OUR WATER WAS THERE BEFORE HAND .THEY COME IN AND DO A TEST BEFORE BUT YOU DON'T GET THE RESULTS UNLESS THEY SAY SO.THAT SPRING WE DIDNOT REALIZE HOW BAD IT WAS TILL THE WATER FOR MY CHICKENS FERMENTED OVER NIGHT IN THE COOP.AND STINK ! (IT WAS NOT HOT AT THIS POINT) WE WERE DRINKING THIS STUFF AND NOT KNOWING THIS WAS THE REASON WE FELT SICK !!!

IMAGINE THAT WE TRUSTED THESE PEOPLE ! ALL AROUND US ARE WELLS ! NOW WE BUY THE WATER WE DRINK OR IT IS FILTERED WHEN WE CAN AFFORD THE FILTERS .WE HAD THE DEP COME IN AND THEY SAID THE LEVELS WERE NOT BAD OF COARSE AFTER WE HAD LOTS OF RAIN. THE SOLUTION WAS FOR US TO PUT 2 GALLONS OF BLEACH DOWN OUR WELL AND LET IT SIT FOR ATLEAST 12 HOURS BUT WE DID THAT DID NOT WORK IT JUST CAME BACK SO WE DID IT AGAIN LET IT SIT LONGER WELL WE ARE STILL DRINKING BOTTLED WATER FILTERED WATER ECT.!!!!!!! BLEACHED IT AGAIN THIS YEAR AS WE DO EVERY YEAR HOPING WE WILL GET OUR OLD WELL WATER BACK FROM BEFORE THE WELLS WERE DRILLED BUT NO CHANCE! ONCE 6 MONTHS GOES BY YOU ARE OUT OF LUCK ALSO THEY ARE NOT RESPONSIBLE FOR ANY PROBLEMS YOU HAVE!!!!

SO TO BAD FOR US BUT HOPEFULLY THIS CAN HELP SO THIS DOES NOT HAPPEN TO ANYBODY ELSE. THE TRUCKS CAME BY OVER THE HOLIDAYS YET AGAIN OUT HERE SO THEY WERE DRILLING SOME WHERE IN THE AREA YET AGAIN!!!!!!

SOMETHING NEEDS TO BE DONE . OUR WELL WAS FINE NO PROBLEMS WE HAD LIVED HERE FOR YEARS,ALWAYS DRANK THE WATER FROM THE WELL,NOW NONE OF US DO INCLUDING MY PETS!

THANKYOU
