Good morning. I am writing this letter to implore you to not allow big business to wreck OUR enviroment. "Those who fail to realize history are doomed to repeat it."- Just look at all the creeks that run orange and are void of life. These gas and oil companies will not regulate themseleves- they prove it all the time.

In the case of Dunkard Creek for example- who approved that? That could not have possibly have been the answer.

Okay- you say jobs right? Guess what these companies come in get what they want and leave. Then who pays for their clean up? WE DO!!!! A couple dozen people get rich and they must laugh at us. If they want to fish a stream they just go to a private club and fish- that the rest of us can't afford. Frak drilling is bad. Nothing good can come from that.

VOTE NO!!!!

And this is coming from republican from Allegheny CO!!!!
