ENVIRONMENTAL QUALITY BOARD

I support DEP's Chapter 95  
proposed revisions & any new  
regulations that would place the  
burden of TDS water purification on  
polluting industries. We need safe  
drinking water - we do not want our  
drinking water supplies to have unsafe  
levels of TDS. We need to protect our  
rivers & drinking water now! No more  
drilling permits until wastewater rules  
are in place! DEP should add discharge  
standards for those contaminants that  
are frequently found in Marcellus Shale  
gas drilling wastewater. DEP needs to  
ensure that all aspects of the generation  
of Marcellus wastewater are regulated!

Thank you -

Ella J. Stahl
