Subject: NO SHALE DRILLING

New York City has performed a study, as I'm sure you know, that has found multiple, serious, and life-threatening effects of shale drilling as it is currently performed. As a result, it has declared a moratorium on drilling.

YOU ARE RESPONSIBLE FOR WEIGHING THE EFFECTS OF THIS PUBLICLY AVAILABLE INFORMATION FOR THE STATE OF PENNSYLVANIA.

If you don't care about it from the perspective of health, you should be seriously concerned about the economic impact of fixing it, once the damage is done.

If, for some reason, you do not have this study, I can provide.
