Subject: Chapter 95 Water Regulations

Dear Sir or Madam:

PLEASE strengthen the regulations regarding protection of waters all over the state of Pennsylvania. The days of special interests, of sloppy stewardship of natural resources, and of greed are far from over. This is NOT the time to loosen regulations but to tighten them. State of Pennsylvania budget crisis notwithstanding, a natural resource may die waiting for the protection it needs, or get destroyed, because there isnt enough money at this point in time. We need to find the money, have the political will and the personal backbone, to protect the waters we all desperately need, each and every one of us.

Very truly Yours,

sharon and Park furlong
